

- Introduce yourself and identify where you are calling from.
- Explain that you are calling to collect some information for the doctor before the patient comes in for his/her appointment and that you'll be asking some questions that should take about 5 to 10 minutes. **Do not mention the research study.**
- Confirm that the patient is still coming in for their scheduled appointment.
- If the patient asks why you are collecting this information: "Your doctor would like me to collect information about your needs for the visit ahead of time which will help us take better care of you during your visit."

The Notes section can be used to write down a reminder to check on something or ask a question to the physician.

The physician may use the notes section to make a note for him or herself to ask the patient a question during the visit or to prioritize problems for the visit.

"What have your typical home readings been?"

"Any high or low values?"
