Systems Engineering Initiative for Patient Safety (SEIPS) Short Course on Human Factors Engineering and Patient Safety—Part I and Part II

August 29-September 2, 2005 University of Wisconsin-Madison 702 Langdon Street Madison, WI 53706-1487

GENERAL INFORMATION

Registration Fees

- \$1,500 Part I only—First Registrant from an Organization
- \$1,000 Part I only—Each Additional Registrant from the Same Organization
- \$1,500 Part II only—First Registrant from an Organization
- \$1,000 Part II only—Each Additional Registrant from the Same Organization
- \$1,250 Part II only—2004 Part I Short Course Attendees
- \$2,200 Part I and Part II—First Registrant from an Organization
- \$2,000 Part I and Part II—Each Additional Registrant from the Same Organization

The conference fee includes the cost of tuition, materials, a nonrefundable registration fee of \$75, an opening reception, breakfasts, refreshment breaks, and lunches. Should you cancel your registration up to 72 hours prior to the short course, you will be refunded the entire short course fee except the \$75.00 nonrefundable portion of the fee. No refunds will be made after that time.

For further course information

For short course information please contact Dr. Carla J. Alvarado (Course Coordinator), CQPI, 575 WARF, 610 Walnut Street, University of Wisconsin–Madison, Madison, WI 53726; telephone (608) 263–2678 or (608) 263–2520. Email: calvarado@cqpi.engr.wisc.edu

SCHEDULE		
Part I	Monday, August 29, 2005	
7:30–8:30 a.m	Breakfast and Registration	
8:30–9:00 a.m.	Overview and Course Objectives	Dr. Pascale Carayon
9:00–10:00 a.m.	Overview of Human Factors Engineering and Patient Safe	ety Dr. David H. Gustafson
10:00–10:15 a.m.	Break	
10:15 a.m.–12:00 p.m.	What is an Error and What is a System 1	Du Dan Trian Kanah
12.00 1.00	What is an Error and What is a System-1	Dr. Ben-Tzion Karsh
12:00–1:00 p.m. 1:00–2:45 p.m.	What is Human Factors Engineering,	
1.00-2.45 p.m.	What is an Error and What is a System–2	Dr. Ben-Tzion Karsh
2:45-3:00 p.m.	Break	Di. Deli-12ioli Kaisii
3:00–5:00 p.m.	The Physical Environment and Ergonomics	Dr. Carla J. Alvarado
5:00–6:30 p.m.	Reception	Attendees and Faculty
3.00 0.30 p.m.	,	Authores and rucuity
	Tuesday, August 30, 2005	
7:30–8:30 a.m.	Breakfast and Conversation	D 11 W 6 1
8:30–10:30 a.m.	Technology Design and Usability	Dr. John W. Gosbee
10:30–10:45 a.m.	Break	
10:45 a.m.–12:00 p.m.	Cognitive Ergonomics	Dr. Pascale Carayon
12:00–1:00 p.m. 2:30–5:00 p.m.	Lunch	Moore Dr. Pascala Caravan
2:30–3:00 p.m.	Job and Organizational Issues Dr. Robert L. V	Wears, Dr. Pascale Carayon
	Wednesday, August 31, 2005	
7:30-8:30 a.m.	Breakfast and Conversation	
8:30-10:00 a.m.	Case Studies and Applications	Attendees and Faculty
10:00-10:15 a.m.	Break	
10:15-11:30 a.m.	Role of Healthcare Provider	Dr. Robert L. Wears
11:30 a.m.–12:00 p.m.	Wrap-up and Evaluations (Box Lunch)	Faculty
Part II	Wednesday, August 31, 2005	
12:30–2:00 p.m.	Registration and Lunch	
2:00–2:30 p.m.	Overview and Course Objectives	Dr. Pascale Carayon
2:30–4:30 p.m.	Work System Analysis	Dr. Ben-Tzion Karsh
4:30–5:30 p.m.	Task Analysis	Dr. Carla J. Alvarado
5:30–6:30 p.m.	Reception Attendees and Faculty	
	Thursday, September 1, 2005	
7:30-8:30 a.m.	Breakfast and Conversation	
8:30-10:30 a.m.	Crew Resource Management	Dr. Eduardo Salas
10:30-10:45 a.m.	Break	
10:45-12:00noon	Crew Resource Management and Team Work	Dr. Eduardo Salas
12:00–1:00 p.m.	Lunch	
1:00–2:45 p.m.	Probabilistic Risk Assessment	Dr. Vicki M. Bier
2:45–3:00 p.m.	Break	
3:00–5:00 p.m.	Root cause analysis, Failure Modes and Effects Analysis	
	and human error taxonomies	Dr. Bruce R. Thomadsen

FACULTY

Carla J. Alvarado, Ph.D., Research Scientist CQPI (SEIPS Short Course Coordinator). University of Wisconsin-Madison

Vicki M. Bier, Ph.D., Professor, Industrial and Systems Engineering, University of Wisconsin-Madison

Pascale Carayon, Ph.D., Professor, Industrial and Systems Engineering, and Director CQPI, University of Wisconsin-Madison

John W. Goshee. M.D., M.S., Human Factors Engineering and Health Care Consultant, Ann Arbor, MI

Engineering. University of Wisconsin-Madison Ph.D., Research

David H. Gustafson

Professor, Industrial

Ph.D., Research

and Systems

Ann Schoofs Hundt. Scientist CQPI, University of Wisconsin-Madison

Ben-Tzion Karsh, Ph.D., Assistant Professor, Industrial and Systems Engineering. University of Wisconsin-Madison

Eduardo Salas,

Psychology,

University of

Central Florida

Bruce R. Thomadsen, Ph.D., Associate Professor, Medical Physics, University of Wisconsin-Madison

Robert L. Wears, M.D., Professor. Emergency Medicine, University of Florida College of Medicine

COPI

Founded in 1985, the University of Wisconsin Center for Quality and **Productivity Improvement (CQPI)** is recognized for multidisciplinary research, requiring input and interaction from many different fields. Since its inception, CQPI has been at the forefront in the development of new techniques for improving the quality of products and processes. Today, the Center's Systems Engineering Initiative for Patient Safety (SEIPS) is also at the forefront of developing methods aimed at improving the quality of healthcare work processes, quality of working life, and quality of healthcare patient safety.

SPECIFIC LEARNING OBJECTIVES

At the conclusion of this activity, participants should be able to:

- Identify the objectives of human factors engineering
- Promote the use of human factors engineering to minimize patient related error
- Recognize the difference between micro and macro human factors engineering approaches
- Summarize what a system is, and what are the implications for its design
- Target and evaluate medical device design and usability issues for patient safety
- Identify cognitive ergonomics issues, such as information processing and human error

- Understand organizational issues related to patient safety (e.g. transitions of care, communication, teamwork, process analysis).
- Ability to assess the physical environment for patient safety associated issues
- Give examples of physical environment issues and patient safety
- Improve situational awareness
- Improve workload management
- Reduce the risk of harm to patients through a teamwork approach to patient safety and quality of care

- Identify human characteristics, capabilities and limitations
- Recognize interfaces between job, person and environment
- Develop team skills and behaviors which reduce the occurrence of clinical errors.
- Attain skills in the HFE method of usability testing and how it fits into proactive risk assessment (e.g., FMEA) and problem investigation

Accreditation Statement: This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the Center for Quality and Productivity Improvement, University of Wisconsin-Madison and The University of Wisconsin Medical School. The University of Wisconsin Medical School is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement: The University of Wisconsin Medical School designates this educational activity as follows: Part I: 16.0 category 1 credits, 1.6 CEUs (16 hours); Part II: 16.0 category 1 credits, 1.6 CEUs

(16 hours) toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

Continuing Education Units: This program is accredited by the University of Wisconsin, Continuing Medical Education, for up to 3.2 CEUs (32 hours). This credit applies to nurses, engineers, and other health professionals.

American Osteopathic Association, American Academy of Physicians Assistants: AOA and AAPA accept AMA category 1 for their credit requirements.

Conference Completion Report: You will be mailed a completion report 4 to 6 weeks after the conference.

Policy on Faculty and Sponsor Disclosure

It is the policy of the University of Wisconsin Medical School that the faculty and sponsor disclose real or apparent conflict of interest relating to the topics of this educational activity, and also disclose discussions of unlabeled/unapproved uses of drugs or devices during their presentation(s). Detailed disclosure will be made in the course handout materials.

Intended Audience

This educational activity is designed for all physicians, nurses, physician assistants, pharmacists, engineers, patient safety officers, and other professionals interested in human factors engineering and patient safety.

REGISTRATION

Register online at www.peopleware.net or use the form below.

SEIPS Short Course on Human Factors Engineering and Patient Safety Part I and Part II

Part I August 29-31, 2005 Part II August 31 - September 2, 2005

Complete a separate registration form (or copy) for each registrant.

The University of Wisconsin provides equal opportunities in employment and programming, including Title IX requirements.

The University of Wisconsin Medical School fully complies with the legal requirements of the ADA and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please notify Dr. Carla J. Alvarado in order to receive service. Please call (608) 263-2678.

ACCOMMODATIONS

Blocks of rooms are reserved at the following hotels. Please call or write to the hotels directly to reserve your accommodation. Be sure to reference the short course "CQPI/SEIPS" to receive the special room rate.

Double Tree Hotel—Madison

525 West Johnson Street Madison, WI 53703-1993 Phone: 608/251-5511

Fax: 608/251-4824

Rates: \$95/single, \$105/double Reservations must be made prior to

July 29, 2005.

The Campus Inn

601 Langdon Street Madison, Wisconsin 53703 Phone: 608/257-4391 or 800-589-6285 Fax: 608/257-2832

info@thecampusinn.com

Rate: \$105/single, \$120/double Reservations must be made prior to

July 15, 2005.

August 29–September 2, 2005 Pyle Center, University of Wisconsin–Madison Madison, WI

Systems Engineering Initiative for Patient Safety (SEIPS)

Short Course on Human Factors Engineering and Patient Safety—Part I & Part II

This two-part, five-day course for professionals presents nationally recognized speakers discussing a variety of Human Factors Engineering and Patient Safety topics including:

Part I

- Human Factors Engineering
- Sociotechnical Systems and Macroergonomic
- Design of the Physical Environment and Ergonomics
- And more...

Part II

- Failure Modes and Effects Analysis (FMEA)
- Root Cause Analysis (RCA)
- Crew Resource Management (CRM)
- Probability Risk Analysis
- And more...
